

## ICON Derelict 1971 Mercedes 300SEL

Extensively modified performance inspired sedan. Full Art Morrison frame, 4-wheel adjustable coil-over with independent rear suspension. ICON Sport brakes by Brembo with Hydratech power assist. One-piece billet aluminum wheels machined by EVOD.

### Interior:

Upgraded materials with original Mercedes inspired styling. Restored wood trim throughout. OEM inspired custom designed center console, SLA printed and vacuum wrapped. Original stereo modified to control hidden audio unit with elevated audio components.

### Mechanical & Electrical:

- GM LS9 mated to hand built 4L85E automatic transmission. Speartech engine harness, Aviaid modified dry sump oiling, HGM Compushift transmission controller
- ICON custom full frame by Art Morrison; tubular control arms, Art Morrison Dana 60 IRS differential, Strange adjustable coil-overs, power rack-and-pinion steering
- Custom 304 stainless tig welded dual exhaust with hand-built headers by Deeds Performance
- Custom plumbing & wiring throughout. XRP HS-79 hose and AN fittings, stainless hard lines
- Subtle LED lighting, 12V power port, hidden kill switch, auto-fade dome light, front seat heaters
- Original gauges, remanufactured with updated internals and custom displays by Redline Gauges
- Bluetooth audio control, four Focal 2-way speakers, hidden dual subwoofer and amplifier

### Appearance:

- ICON Derelict original and unaltered time aged patina exterior paint, stainless and chrome finishes
- ICON custom billet wheels borrowing Mercedes design inspiration with time aged patina appearance
